

Washington University in St. Louis invites applications for a position at the rank of Assistant Professor to be jointly held in the Department of Education and the Center for Applied Statistics, in Arts & Sciences. This hire is part of an Applied Statistics initiative in Arts & Sciences. We seek scholars who study education, broadly defined, and have strong skills in the development or use of cutting-edge statistical methods. The successful candidate will also have well-defined theoretical and empirical interests in the field of education. Candidates are encouraged to apply from any relevant social science discipline (e.g., sociology, economics, political science, education, anthropology, criminology, law, or psychology). Individuals whose interests support the Department's strength in urban affairs, from a national or international perspective, are especially welcome. Teaching responsibilities will be divided between the Department and the Center, both to be housed in the Social Science and Law Building, currently under construction on the Danforth Campus. Research responsibilities include conducting and publishing scholarship in quantitative social science disciplines related to education, statistical methods, or related fields, and applying for external grants. Candidates are expected to have Ph.D. in hand by time of appointment.

Candidates should submit a CV, a letter of application, and arrange for at least three letters of reference to be sent directly to: Marilyn Broughton, Washington University in St. Louis, Danforth Campus, One Brookings Drive, Campus Box 1183, St. Louis, Missouri 63130-4899. Applications will be considered as they are received, however priority will be given to those received by January 4, 2008. We anticipate a Fall 2008 start date. We especially encourage applications from women and members of minority groups. Washington University in St. Louis is an equal opportunity employer. Employment eligibility verification required upon hire.
