

EXPERIENCED PSYCOMETRICIAN -- DATA ANALYST
CAREER OPPORTUNITY FOR PSYCHOMETRICIANS AND QUANTITATIVE PSYCHOLOGISTS

Gap International, a global management consulting company that partners with executives in producing exceptional growth through extraordinary performance, is currently searching for an individual with a strong background in psychometrics to participate in the growth of our diagnostics business.

Responsibilities:

- Create and validate psychometric instruments
- Analyze data including proposing methods of analysis and providing rationale for choices and conclusions
- Generate reports (tables, graphs, narratives) to meet client needs

Requirements:

- Ph. D. in psychometrics, quantitative psychology or related field
- Prior experience in psychometrics and survey data analysis
- Experience in designing and delivering complex data analyses
- Strong writing skills

Candidates must possess the ability to work interdependently in a fast-paced environment that demands a high level of commitment to one's own continuous growth and development, as well as have a willingness to travel, strong computer skills and a commitment to our firm's values. Work experience in a corporate setting is a plus.

Interested candidates are invited to submit a letter of intent and resume to Dr. Arsine Oshagan at arsine.oshagan@gapinternational.com or fax to 610-328-1092.
