

BROWN CENTER FOR THE STUDY OF CHILDREN AT RISK

We are looking for a full-time biostatistician (Master's Degree or PhD) to conduct data analysis for studies at the Brown Center for the Study of Children At Risk. Expertise in multivariate statistical methods including longitudinal modeling is required. The position includes the possibility of an academic appointment at the Warren Alpert Medical School of Brown University, based on qualifications.

Please send cover letter and CV to Dr. Linda LaGasse.
